

You can help save the life of a child.

When installed and used correctly, child safety seats and seat belts can prevent injuries and save lives. Unfortunately, the **current misuse rate** of child safety seats is **higher than 75% leaving many children at risk for serious injury or death.**

We need your help!

Child Passenger Safety Technicians volunteer a few hours each month to inspect child restraints and instruct parents on the proper use of child safety seats. They give parents, grandparents and caregivers the knowledge they need to ensure that their children are properly restrained every day.

Kootenai County is currently experiencing a shortage of trained Child Passenger Safety Technicians. Citizens like you can make the difference.

To learn more about Safe Kids Kootenai County contact **Sarah Nielsen** at snielsen@kmc.org, call **(208) 666-2511**, or visit us online at www.skcc.org
